Blackboard
LEARN ULTRA

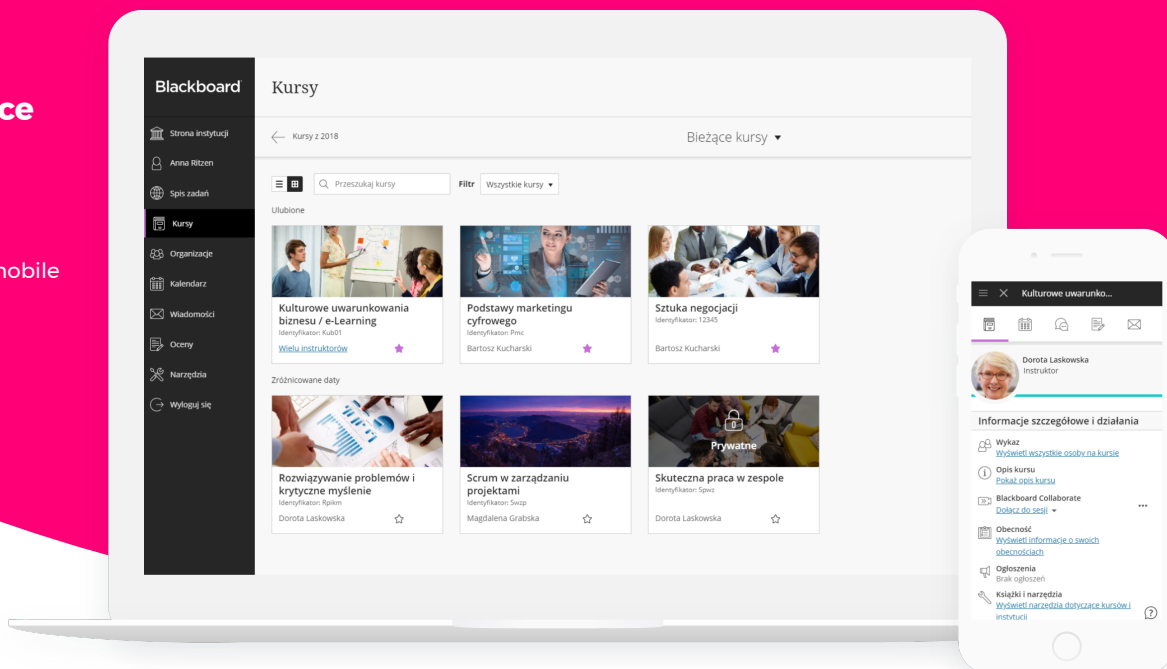

Blackboard Learn Ultra
is a part of **educcloud**,
a new generation of IT solutions for universities
concentrated on the Students
and their needs.

 **educcloud**
by PCG Academia

User interface

New, modern web and mobile interface

Benefits

Teachers

- › Tools for developing high quality educational content online
- › Intuitive management of processes, including student evaluations and progress monitoring
- › Virtual environment for collaboration

Students

- › Intuitive and modern-looking user interfaces
- › More frequent feedback for improved learning and task performance
- › Virtual classrooms for peer-to-peer collaboration and relationship building

Administration

- › New, alternative models of delivering instruction to students
- › Increased competitiveness of the educational offer of the university
- › Ability to reach a broader student population, including international students

Functionality

- Developing attractive educational content provided in synchronous and asynchronous form
- Schedule enabling better management of educational processes
- Virtual environment of collaboration between students and teachers
- Repository of educational materials, catalogued and easy to search through
- Ability to generate a wide range of reports on user engagement with the platform
- Activity stream with information on the latest updates and tasks
- Management of students and grades from the SIS level thanks to two-ways integration
- Announcements, messages and other forms of communication between the students and administration
- Access to content through web platform and mobile devices
- Customizable user interfaces for different administrative units of the university
