Benefits

Dean's Office

- Access to student document templates compliant with current regulations
- Effective communication with students and teachers through notifications, e-mail and text messages
- Advanced reporting inside and outside of the organization

Students

- Limited need for an in-person presence at the Dean's office
- Constant updates on the schedule, grades, events and other relevant information
- User friendly, modern-looking web and mobile interfaces

IT Department

- Integration with external systems and autonomous development of new functionalities through open API
- Technical support and system maintenance provided under SLA agreement
- User manuals and technical documentation available online

Functionality

- Full control over processes related to administering programs of studies
- Modern-looking interface for students and teachers compliant with WCAG 2.0 guidelines
- Integrated workflow management of student documentation
- Various communication methods between administration, teachers and students (notifications, announcements, messages)
- Bulk operations on students and teachers registered in the system
- Groups of universities managed under single installation (federations, capital groups)
- Mechanisms supporting collection of clean data for improved reporting and analysis
- Automated data import to POL-on, ORPPD and JSA ministerial systems
- Integration with external systems through open API
